-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7,9-11 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Gifford, et al.-5695504.

Gifford discloses a device as shown in fig. 40 having inner and outer rings with openings and retention spikes. The rings can rotate relative to each other. There are entry and exit openings at ends of each ring as well. At least the portion of the spikes closest to their attachment to the ring would be at a tangent to the ring. Claim 9 is rejected in the event that it was intended to be dependent on claim 1.

Allowable Subject Matter

Claims 15-17 are allowed.

Claims 8,12 and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed 05-03-2007 have been fully considered but they are not persuasive.

The openings are the spaces between the bottom of the rings and the top side of the prongs 499,500. Tissue could enter the opening laterally and be punctured by a

prong on the other ring upon rotation. The entry and exit openings are the end openings of the rings. Each of the rings together with the prongs and openings could be termed "baskets" and since one is inside the other, they would be nested. The openings are as identified above and the openings therefore provide a mesh. The spikes or prongs of each ring are indeed adjacent or proximate the openings of each ring.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
